

chairs &  
more

Giovane azienda nata nel 2007 con l'obiettivo di rispondere alle moderne esigenze del mercato contract, **Chairs & More** da subito si propone al mercato internazionale con le sue collezioni dal design estremamente lineare come la poltroncina So Pretty e le sedute in poliuretano Gotham.

L'attenzione per il comfort, la qualità dei materiali e la produzione accurata consentono all'azienda di crescere rapidamente proponendo ogni anno nuove collezioni e ottenendo riscontri da parte del mercato e della stampa internazionale che ne riconoscono la forte personalità e l'impegno costante nella ricerca di nuovi concept di prodotto.

Nel 2014 **Chairs & More** si apre a collaborazioni con giovani designer, nascono così la collezione Churros disegnata da Kazuko Okamoto che interpreta il concetto di modularità di seduta in modo radicale, e, per la prima volta, la collezione Jujube dedicata all'outdoor disegnata da Antonio de Marco e Simone Fanciullacci. Da allora, l'azienda, è continuamente impegnata a sviluppare nuovi prodotti selezionando giovani e talentuosi designer tra cui Tommaso Caldera, con il quale vince il secondo premio Young Design 2017 con la poltroncina Mousse al Salone del Mobile di Milano, e lo studio Pastina di Roma con la nuova collezione Chips. Dalla collaborazione con Roberto Paoli nascono invece le collezioni Babah e Nube, quest'ultima realizzata con un innovativo poliuretano morbido FreeForm.

"Ci rivolgiamo a chi sceglie il design ma non perde di vista la comodità, a chi è attratto dall'originalità ma non vuole l'eccesso, a chi ricerca la qualità e apprezza la disponibilità a collaborare riconoscendo che il servizio è una componente fondamentale di ciò che viene offerto".

**Marco Roseano**

Young company founded in 2007 to respond to the modern needs of the contract market, **Chairs & More** immediately presents itself to the international market with its linear design collections such as the So Pretty armchair and Gotham chair.

The attention to comfort, the quality of the materials and the careful production allow the company to grow rapidly by offering new collections every year and obtaining feedback from the market and the international press that recognizes their strong personality and constant commitment to search for new product concepts.

In 2014, **Chairs & More** starts the collaboration with young designers; Kazuko Okamoto designs the Churros collection, which interprets the concept of modular seating. Antonio de Marco and Simone Fanciullacci design the Jujube for outdoor use.

Since then, the company has been continuously committed to developing new products by selecting young and talented designers like Tommaso Caldera, winning the second award at the Young Design 2017 with the Mousse armchair presented at the Salone del Mobile in Milan, and the Pastina Design Studio with the Chips collection. Roberto Paoli designs the Babah collection, in rigid polyurethane, and the Nube collection, with the seat in innovative FreeForm soft polyurethane.

"We turn to those who choose design but do not lose sight of comfort, to those who are attracted by originality but do not want excess, to those who seek quality and appreciate the willingness to collaborate, recognizing that service is a fundamental component of what is offered".

# Babah

Babah è una seduta accattivante e piena di personalità. Presenta compostezza di linee, proporzioni e toni che la rendono al tempo stesso classica e innovativa. La sua figura essenziale è ingentilita dal decoro dello schienale, caratterizzato da linee verticali che appaiono come cuciture di una imbottitura morbida, in realtà si tratta di effetti ottenuti dallo stampaggio di poliuretano rigido, ignifugo che mantiene apprezzabili le caratteristiche di facile pulizia, resistenza e leggerezza.

Il risultato è un'estetica che riesce a dosare in modo equilibrato e armonioso lo stile classico retrò con la tecnologia dei nuovi materiali adatti in particolare ad un utilizzo contract. Babah è disponibile sia con base a 4 gambe, facilmente impilabile, sia nella versione a slitta.

Babah is attractive and full of personality. Babah is a collection of chairs characterized by proportions and lines that make it both classic and contemporary. This chair can be placed in multiple environments, heterogeneous in style and purpose. With its slightly 'retro' look, Babah is an timeless essential.

The design is softened by the decorum of the back, characterized by vertical lines that look like seams of a soft padding but are the result of the mold of rigid polyurethane, flame retardant, easy to clean, durable and lightweight. Babah is available with 4 legs, easy to stack, either in a slide.

Scocca bicolore sabbia–fango  
Bi-color shell sand–mud

## Babah S

Scocca in poliuretano rigido ignifugo. Base in metallo verniciato nero, bianco o cromato.

Rigid polyurethane shell fire retardant. Black, white painted or chrome metal frame.

## Babah SG-65

## Babah SG-80

Babah è disponibile nella versione con 4 gambe di metallo cromato o verniciato facilmente impilabile. La scocca si presenta in diverse colorazioni nelle tinte naturali e neutre del moka, grigio, fango, crema, bianco e nero, e in quelle più accese del giallo, cielo e con 3 varianti bicolore tono su tono, chiaro all'interno e scuro all'esterno.

Tutte queste nuances in gradazione creano particolari effetti cromatici di dinamismo e armonia sia nella disposizione in gruppo che nell'allocazione impilabile delle sedute.

Babah shell comes in different colors of natural and neutral shades like moka, gray, mud, cream, black, white or in bright colors like yel-low, sky-blue, and also with bicolor tonal variations, light inside and dark outside.

All these nuances create special color effects of dynamism and harmony, particularly with the neutral colors, both when the chairs are placed in group or stacked.

## Babah SL SG-80

Le sedute Babah sono disponibili anche con la base a slitta in tondino di metallo verniciato bianco, nero o cromato.

L'ampia gamma di varianti rendono questa collezione estremamente eclettica. Dalle zone ricettive, come ristoranti e bar, agli ambienti collettivi e uffici, la Babah è in grado di ambientarsi con estrema disinvoltura in ogni contesto merito anche delle misure contenute, della sua linea composta e sobria e della robusta struttura in poliuretano rigido, resistente ed ergonomica.

Babah is also available with metal sled base, black and white powder coated, or chrome.

The wide range of variants makes Babah a very eclectic collection. From recreation areas, such as restaurants and bars, to the public and office environments, Babah chair can easily fit into any different environment thanks to its compact sizes, to its elegant shape and its strong shell made of rigid Polyurethane Tech, durable and ergonomic.

La collezione Babah presenta anche una linea di sedute e sgabelli realizzati con una originale base in essenza di faggio naturale o laccato opaco. Si tratta di una variante che integra le gambe in massello tornito con una struttura in tondino di metallo dal design estremamente leggero e contemporaneo.

L'effetto è una composizione molto accattivante resa dall'accostamento di differenti elementi materici e cromatici che permettono alla seduta di trovare collocazione anche in contesti residenziali, oltre che in differenti ambiti contract.

The Babah collection also offers a range of chairs and stools realized with an original base in natural or matt lacquered beech wood. Integrating a solid turned wooden legs with a metal rod frame, this version is characterized by a light and contemporary design.

The result is an attractive composition through the combination of different materials and color elements allowing the Babah to be easily placed in residential areas or public spaces.

Betibù è una poltroncina dalle forme sinuose e accoglienti con uno stile ironico e allo stesso tempo romantico capace di integrarsi in modo disinvolto sia negli ambienti residenziali che negli spazi contract.

Le impunture sia sulla seduta che sullo schienale, caratterizzano questa collezione, dove la comoda scocca è imbottita in poliuretano espanso. Un'ulteriore possibilità di personalizzazione è data dalle basi in legno o tondino di metallo e a slitta.

Betibù collection is a versatile range of seating with a sinuous and comfortable shape. With its casual style, this collection is indicated both for domestic and contract spaces.

The stitchings on the seat and back, provide character to this collection, and the comfortable shell is padded with polyurethane foam.

Indoor  
Frassino - Ash

Un sapore vagamente retrò caratterizza la collezione Cacao, una famiglia completa di sedia, sgabelli e poltroncina in frassino con seduta in multistrato.

Ogni variante esprime uno stile informale ma di tendenza ideale per gli ambienti moderni e per coloro che desiderano con questi arredi evocare uno stile tradizionale sia in contesti residenziali sia in ambiti contract come ristoranti, alberghi, bar.

Le finiture sono naturale o tinto noce; per le lacche opache sono disponibili le tinte nero, bianco, giallo intenso "segnaletico" e grigio "traffico".

A retro style characterizes the Cacao collection which consists of a chair, stool and armchair.

The mix of materials and design make this collection ideal for contract environments, as well as domestic ones. Cacao is also available with the ash frame in a choice of finishes: natural or walnut stained, or matt lacquered black, white, "signal" intense yellow or "traffic" grey.

# Chips

Allegra e contemporanea, la collezione Chips cattura da subito il nostro sguardo e comunica in modo deciso il suo stile giovane e disinvolto. Una collezione di sedute e sgabelli in cui lo schienale è senz'altro l'elemento iconico più evidente e significativo che identifica l'intera collezione. La forma stondata, ampia e generosa sembra travalicare i suoi consueti limiti funzionali espandendosi oltre la base del sedile e andando a ridefinire il proprio spazio in modo nuovo per creare un design originale e accattivante.

Il risultato è una seduta che gioca su un doppio contrasto di volumi, quello orizzontale predominante dello schienale, e quello verticale sottostante delle basi. Le gambe della seduta sono infatti molto slanciate e lineari soprattutto nella versione a slitta in metallo oltre che in quella in faggio. La linearità verticale delle basi, in dialogo con la forma allungata dello schienale, è ancora più evidente negli sgabelli a doppia altezza.

Sleek and slick, the Chips collection is a true eye-catcher, with its unmistakably upbeat, trendy style. A set of chairs and stools, the back of which is without doubt their most iconic and characterising feature. With its ample curves and generous size, it almost seems to transcend the limits of mere functionality, and by extending beyond the seat, it redefines its space in novel ways, giving rise to an original and captivating creation.

This is a design that plays with a double contrast of volumes, the horizontal one dominated by the back, and the upright one, stretching out beneath the seat. The legs are sleek and slender, most notably in the models endowed with either a metal sled base or beech legs. The vertical linearity of the bases, complemented by the elongated shape of the back, is particularly evident in the double-height stools of this collection.

La collezione Chips prevede la variante SL con base a slitta in tondino di metallo nero opaco.

La scocca è realizzata in multistrato di faggio e rivestita con tessuti in similpelle o velluto disponibili in un'ampia scelta di tonalità contemporanee oltre che in tessuti acrilici lavorati con nuovi effetti melange tono su tono.

Tutti i rivestimenti sono ignifughi e facilmente pulibili. La collezione Chips SL oltre alla sedia prevede anche gli sgabelli con altezze rispettivamente di 65 cm e 80 cm.

The Chips collection includes the SL variant featuring a matt black metal sled base. The chairs have a multilayer beech frame, upholstered with faux leathers and velvets available in a wide range of fashionable hues, as well as acrylic melange fabrics conveying a trendy, ton sur ton look.

All materials are fire retardant and easy to clean. As well as the chairs, the Chips SL collection also includes 65 cm and 80 cm high stools.

Dogo è una collezione di sedie impilabili realizzate in poliuretano rigido il cui design asciutto e deciso cela dietro una silhouette leggera una seduta di grande robustezza, che fa dell'essenzialità la propria cifra stilistica.

Un dettaglio cattura lo sguardo: le gambe sottili della base che si innestano direttamente sulla scocca, lasciandola come sospesa.

Disponibile con o senza braccioli, Dogo viene presentata in due colori: antracite e bianco.

Dogo is a collection of stackable chairs made in rigid polyurethane with an essential design that hides a very strong seat behind a light silhouette, which makes essentiality its stylistic signature.

A detail catches the eye: the slender legs of the base that engage directly on the shell, leaving it as if suspended.

With or without armrests, Dogo is available in two colors: anthracite and white.

# Gotham

Gotham può sembrare una goccia, una fenditura lineare e slanciata, un taglio per la presa e l'ancoraggio oppure uno spiraglio da cui è possibile osservare attraverso. Gotham è nata così con quel suo segno grafico distinto e ben riconoscibile che nelle diverse versioni, ha assunto significati e funzioni diverse, rafforzano la sua identità senza mai apparire invadente.

Nata nel 2010 dall'idea di Dario Delpin, questa seduta ha dimostrato di saper attraversare le mode del momento presentandosi di fatto sempre attuale senza mai tradire le proprie caratteristiche distintive: la delicata curva della sua sagoma, il segno grafico aggraziato e gentile e la sensazione avvolgente e accogliente della seduta. Concetti così semplici eppure non scontati che rendono questo elemento d'arredo originale pur essendo estremamente lineare, passeggiabile per diverse collocazioni e adatto ad ogni destinazione d'uso.

Gotham It may look like a raindrop, a slender linear cut, an opening for gripping and for anchoring or even a window from which you can look through. Gotham was born like this, with this distinct and recognizable graphic detail which, in different versions, takes on different meanings and functions, strengthening its identity without ever appearing excessive.

Created in 2010 from an idea of Dario Delpin, it has proven to be able to stand strong against passing fashions by being always modern without ever betraying its distinctive features: the delicate curve of its silhouette, its graceful graphic detail and the feeling of snugness and coziness of the seat itself. Simple concepts, but never conventional, which make this piece of furniture completely original notwithstanding its extreme linearity, and make it suitable for any setting and for every purpose.

La collezione Gotham Sled si distingue per la base a slitta in metallo cromato o verniciato bianco o nero.

Questa variante contribuisce a slanciare il design del modello offrendo un'ottima stabilità di seduta.

The Gotham Sled collection stands out for its metal sled base, which can be either chromed or painted white or black.

This variant contributes to giving slenderness to the design of the model, while offering excellent seat stability.

Altra caratteristica è la possibilità di rivestire la scocca con tessuti ignifugo o eco-pelle. In questo caso l'imbottitura accresce il comfort della seduta offrendo, anche, un'ulteriore possibilità di customizzazione del prodotto.

Another feature is the ability to cover the shell with flame-retardant fabrics or eco-leather. In this case the padding helps to increase the comfort of the seat while providing an additional possibility of customizing the product.

Faggio - Beech	

La collezione Gotham W si presenta con la base in legno di faggio verniciato naturale, noce, moka oppure laccato nero o bianco. Le finiture, in tutti i casi, sono disponibili nella variante opaca, estremamente calda e naturale.

L'abbbinamento del poliuretano con il legno della base rende la seduta adatta ad ambienti intimi, come interni domestici o ristoranti che vogliono offrire un'atmosfera calda e accogliente. La scocca in Tech® garantisce una elevata praticità d'uso essendo molto resistente ai graffi, all'usura e facilmente pulibile.

The Gotham W collection has a base in beech wood varnished natural, walnut or moka, or lacquered black or white. Finishes, in all cases, come in matte, which looks extremely warm and natural.

The combination of polyurethane with the wood of the base makes these seats suitable even for intimate ambiances, such as home interiors or restaurants that want to offer a warm and welcoming atmosphere. The seat's body in Tech® is extremely user-friendly being very resistant to scratches and wear, and easy to clean.

# Gotham Woody

Gotham Woody Sled è una elegante collezione di sedute, sgabelli e lounge con scocca in noce e base a slitta in metallo verniciato nero. Questa famiglia di varianti molto articolata, interpreta la scocca in chiave contemporanea accostando il pregio dell'essenza noce alle linee disinvolte e leggere del metallo.

Arricchiscono ulteriormente l'intera gamma le versioni imbottite, realizzate con dettagli molto particolari. Il tessuto infatti, non solo impreziosisce e rende morbida la seduta, ma evidenzia il profilo stesso della scocca, sottolineando, con un sottile bordo in rilievo, il caratteristico dettaglio a goccia della Gotham.

Gotham Woody Sled is an elegant collection of chairs, stools and lounge chairs with a walnut shell and a black painted metal sled base. This highly articulated family of variants interprets the wooden shell in a contemporary way by combining the excellence of the walnut wood with the light and casual lines of the metal.

The full range is further enriched by the upholstered variants, made with very exclusive details. The fabric not only enriches and softens the seat, but also highlights the whole profile, emphasizing, with a thin embossed edge, Gotham's characteristic raindrop detail.

In questa variante il segno distintivo del foro a goccia sullo schienale viene riproposto e valorizzato anche nella versione con rivestimento. In quest'ultimo caso si può ottenere un effetto dell'imbottilatura a contrasto o in abbinamento con la struttura, per un risultato tono su tono

In this variant, the distinctive raindrop cut in the backrest is visible and emphasized also in the upholstered version, which is particularly interesting because it gives the choice between a contrasting effect of the fabric or a colour combination with the structure for a completely coordinated tone on tone.

# Jujube

Jujube, è una gamma completa di sedute, divani, poltrone e poltroncine che si abbinano in molteplici soluzioni come un vero e proprio sistema modulare d'arredo. L'elemento decorativo che contraddistingue l'intera collezione è lo schienale in metallo con disegno a rete leggero e avvolgente.

Estremamente flessibile nella sua componibilità, Jujube è molto eclettica anche nella varietà delle finiture. I materiali sono realizzati per la destinazione in outdoor come la verniciatura zincata, tuttavia, la ricerca materica così originale e raffinata, fanno della collezione Jujube un complemento d'arredo anche per l'interno con la trapunta imbottita e l'ampia gamma di tessuti colorati che si adattano a diversi stili di interior design.

Jujube is a seating system consisting of modular elements which are combined each other to realize different types of seats. The tubular backrest, designed with metal rods, is the decorative element that characterize this collection, realized with materials and finishes resistant to weathering.

The materials and finishes are fit for both the outdoor and the indoor use, because of the galvanized coating, the laminated larch, the weaving in nautical rope and the UV tested fabric, and resistant to humidity. The selection of refined and original materials, make the Jujube collection an authentic piece of furniture also for the indoor use, with the padded back and the wide range of colorful fabrics that adapt to different styles of interior design.

## Mousse P

Morbida, soffice e dolce come le sue forme, Mousse è una seduta golosa che attira a sé l'attenzione e soddisfa il palato di chi apprezza i sapori nuovi ma senza rinunciare alla tradizione. Ideata dal gusto fresco e creativo di Tommaso Caldera, la sedia Mousse rivisita, in chiave contemporanea, lo stile classico della poltrona da living adatta a interni residenziali come a bistrò e ambienti lounge.

La collezione, infatti, si articola in due varianti che si abbina in modo armonioso ed equilibrato: la Mousse SP, più alta e contenuta, e la versione Mousse P avvolgente e adatta a zone relax e waiting hall. Entrambe le sedute, dal sapore lievemente retrò, si apprezzano anche per il particolare abbinamento di tessuti che possono prevedere gli interni in una tinta differente dagli esterni e la possibilità di comporre la sedia con materiali diversi come la stoffa ignifuga e l'ecopelle, ingredienti anche questi indispensabili per personalizzare in modo creativo e unico la propria Mousse.

Soft, pliable and as sweet as its shapes, Mousse is a delight for the eye, a luscious seat that tickles the palate of whoever appreciates new flavours without forsaking tradition. The fruit of Tommaso Caldera's fresh, innovative style, Mousse adopts a more contemporary approach to revisit the classic living room armchair, resulting in a seat that is ideal for both homes and public areas such as bistros and lounges.

The collection consists of two variants that can complement each other in a graceful and harmonious fashion: Mousse SP is a more upright, slender seat, whereas Mousse P is more enveloping, and therefore ideal for relaxation areas and waiting halls. Both models, elegant with a hint of retro, come in a wide array of furnishing fabrics, which can be combined to create seats juxtaposing two shades of colour at the front and back and sides, respectively, or even different types of material, including fire retardant fabric and eco-leather. This rich variety of ingredients is the key to customising one's Mousse in a creative and unique fashion.

Metal frame

Moyo è una seduta per esterno realizzata in metallo. La forma è affidata ad un unico segno, una linea che per tutto il suo percorso, rimane identica a se stessa e senza interruzioni dà origine ad una seduta dal sapore primordiale, morbido, quasi materno. Anche i colori materici e naturali comunicano l'idea di leggerezza e comfort avvolgente.

Moyo è proposta nella versione in metallo e in quella con intreccio in corda nautica che rende la seduta molto comoda ed elegante.

Moyo is an outdoor chair made in metal. The shape is obtained by a single sign, a unique line that seamlessly creates a primordial seat, soft almost maternal. Even the material and natural colors evoke ancestral feelings and communicate in an elementary way the idea of lightness and enveloping comfort.

Moyo is proposed in the metal version and with nautic rope weaving which make able seat very confortable and elegant.

# Nube

Uno spirito informale, estroso, quasi ironico è quello che ispira la collezione Nube: una collezione articolata di sedute e sgabelli disegnati da Roberto Paoli e realizzati con un particolare poliuretano morbido che funge quasi da imbottitura. Il design è anch'esso sinuoso con le linee curve e tondeggianti dello schienale e il sedile molto simile a un cuscino in tessuto ma più pratico in quanto realizzato in Freeform e quindi resistente ai graffi, facilmente pulibile e ignifugo. Altro elemento che caratterizza la collezione è il foro dello schienale che ne facilita la presa, alleggerisce i volumi e il peso rendendo la seduta pratica e maneggevole.

Le basi sono di tre tipi, oltre alle versioni in metallo a 4 gambe: Nube S e a slitta laNube SL, è proposta anche la versione Nube W molto particolare con basamento in faggio naturale tornito che sottolinea ancora di più lo stile anni Settanta evocato dalla collezione. Nube è disponibile in 5 diverse colorazioni: Black, White, Mud, Yellow e Red.

An informal, whimsical, almost ironic spirit seems to transpire from Nube, a comprehensive collection of chairs and stools designed by Roberto Paoli. The material employed is soft polyurethane, mimicking upholstery to perfection. The design is very sinuous, characterised by the rounded curves of its back, and a seat that has all the advantages of padding without its drawbacks. This latter element is made in Freeform, a fire-proof, scratch-resistant material that is also extremely easy to clean. Another element characterising the programme is the hole at the back of the chairs and stools, which makes them lighter in both weight and appearance, as well as easier to handle.

Three types of bases are available: Nube S is endowed with metal legs, Nube SL has a sled base, and the most striking version of all Nube W has rounded beech sheaths fitted over its metal legs, a feature that strongly enhances the Seventies look evoked by this collection. Nube is available in five different colours: Black, White, Mud, Yellow and Red.

Faggio - Beech	

L'abbinamento dell'essenza del faggio e del metallo impreziosisce e connota questa variante W della collezione Nube. Il legno è disponibile sia con finitura naturale che laccata opaca in nero o bianco, quindi in contrasto o in abbinamento con il tondino di metallo.

I materiali si innestano armoniosamente sia alla base della seduta che nel poggiapiedi degli sgabelli con accurati dettagli di lavorazione che valorizzano l'intera estetica della sedia.

The combination of beech wood and metal embellishes and characterizes this variant of the Nube collection. The wooden parts come with either a natural finish or varnished matt black or white, so as to effectively contrast or match the metal frame of the leg.

The various parts, footrest included, are elegantly joined together, and these well-crafted details contribute to the overall eye-catching aesthetics of Nube W.

# So-pretty

## So-pretty

Struttura in acciaio e poliuretano ignifugo schiumato a freddo.

Steel frame moulded in fire retardant cold-cure polyurethane.

Width	56 cm – 22 in
Height	75 cm – 29.5 in
Seat height	48 cm – 19 in
Depth	59 cm – 23 in
Weight	16.5 kg – 36 lb
Packaging	0.28 m <sup>3</sup>
Pieces for box	1

Indoor

Eclettica, dinamica ed estremamente comoda, la poltroncina So-pretty cattura l'attenzione per il suo design morbido e sinuoso. Sono diversi gli ambiti di collocazione di questa seduta che compatta e avvolgente può trovare spazio sia in aree attesa, in sale ristorante e in zone living residenziali o uffici.

La poltroncina ha struttura in acciaio rivestita in poliuretano schiumato a freddo ed è foderata con tessuti di vari colori.

Eclectic, dynamic and extremely comfortable, the So-pretty armchair catches the attention for its soft and sinuous design. There are several areas of location for this compact and enveloping armchair that can find space both in waiting areas, in restaurants and in living or office areas.

The armchair has a steel frame entirely moulded with cold-cure polyurethane, upholstered with different fabrics.

# Tulip

Tulip è una collezione di poltroncine multifunzione che per il design e le varianti a disposizione, si propone come un nuovo concept di seduta. Tulip nasce in due varianti che differiscono, per dimensioni, forma ed ergonomia.

Tulip small, regolare e simmetrica, è una poltroncina adatta a diversi ambienti: sale da pranzo, uffici, zone relax o sale d'attesa. A seconda della sua destinazione, può essere accessoriata da un tavolino in metallo.

Tulip large è una seduta completamente innovativa, caratterizzata da una forma asimmetrica e da un pratico tavolino estraibile, elementi che invitano a un suo utilizzo operativo e confortevole come la consultazione di strumenti informatici, la lettura o il consumo di cibi e bevande. Le due varianti possono essere abbinate tra loro per realizzare gruppi di postazioni. La seduta è realizzata in poliuretano integrale morbido e colorato, con una piacevole sensazione al tatto. Le gambe sono il legno di frassino verniciato naturale.

The Tulip collection is a series of multifunctional armchairs that represent a new concept in sitting. Tulip comes in two variants -Small and Large- and they are differ not only in size but also in shape and ergonomics.

Tulip Small, regular and symmetrical, is a chair placed in different environments: catering, meeting room, waiting. Depending on its destination, can be equipped with a small metal table.

Tulip Large is an innovative new seat, featuring an asymmetrical shape and a handy pull-out table, elements that invite people to use a tablet or laptop, read or consume food and drink. The two armchairs can be easily combined each other to create coworking areas in the office, waiting or meeting rooms. The shell is made of a soft and coloured integral polyurethane, with a nice sensation to the touch: the legs are in natural polished ash wood

## Tulip S
